- 1) If your Broadband Connection fails, your voice service will also fail. Your service may cease to function if there is a power cut or failure. These failures may be caused by reasons outside our control.
- 2) This service allows calls to the emergency services numbers (such as 999 and 112) to the extent set out in the relevant Regional Supplement. However, calls will fail if there is a power cut or your broadband connection fails. The capability to call emergency services in other locations is set out in the relevant Regional Supplement.
- 3) You must register with 8x8 the primary physical location where the Service will be used. If you do not update 8x8 with changes to the location of where the Service is being provided, it may or may not be possible for emergency operators and authorities to identify your location and phone number when you dial an emergency service.
- 4) If you have purchased Hot or Cold Storage, you must activate your storage plan/policy through the 8x8 Admin Portal (also known as the 8x8 support portal) before you will be able to use it, as described at: <https://docs.8x8.com/8x8WebHelp/8x8-storage-and-retrieval/Content/StorageAndRetrieval/About8x8StorageAndPolicy.htm>. Please do this immediately, as you will be invoiced for your storage plan/policy starting on the Effective Date.
